

SPIDERJET® M EDGE

The Spiderjet M Edge is attached to the work surface with permanent magnets and, thanks to its small build, is ideal for cleaning particularly close to the edge of the coated area. The vacuum system immediately retrieves all waste water and removed solids and allows for further processing.

Working width: 374 mm
Operation pressure: max. 3000 bar

Operation speed: 0 – 7 m/min
Flow rate: max. 50 l/min

Weight: 105 kg

**475 mm width
for optimal
surface accessibility**

**Strong magnets
for self-adhesive
operation**

**Direct retrieval of
waste water and solids
through vacuum system**

Product benefits

- Maximum manoeuvrability via two independent, electrical drive lines
- Optimal utilization of the working width due to narrow construction
- Cleaning over edges possible
- Uniform removal pattern across the entire working width
- Ideal surface preparation
- High operational safety
- Leak-free rotary joints with dynamic high-pressure seals ensure long service intervals
- Simple construction and easy maintenance
- Radio remote control increases operator safety
- Secured by a double fall arrest system

HAMMELMANN®

Spiderjet® M EDGE

Field of application

The drive wheels placed directly behind the high-pressure water tool enable a particularly narrow construction with a large working width. This makes the Spiderjet M Edge great for removing coating from intermediate surfaces or working around narrow contours and on edges.

Two vacuum systems are available for the Spiderjet M Edge

Vacuum collector - 1900

Suction power:

1900 m³/h @ 500 mbar vacuum
 Maximum vacuum: 500 mbar
 Vac. generator: Roots - rotary piston blower
 Electric motor: 45 kW
 Length: 2335 mm
 Width: 1500 mm
 Height: 2380 mm

Separation tank:

Capacity: 3 m³
 Length: 2350 mm
 Width: 2350 mm
 Height: 4200 mm

Vacuum collector - 660

Suction power:

660 m³/h @ 500 mbar Vacuum
 Maximum vacuum: 500 mbar
 Vac. generator: Roots - rotary piston blower
 Electric motor: 15 kW
 Length: 1750 mm
 Width: 970 mm
 Height: 2180 mm

Separation tank:

Capacity: 1,3 m³
 Length: 2050 mm
 Width: 2050 mm
 Height: 3660 mm

Radio remote control
